Greetings,

Thank you for taking the time to read JEM's Newsletter featuring Custom Military Cable Assemblies. JEM has recently renewed its 2010 to 2011 ITAR registration to manufacture military cable assemblies. As a result of achieving this certification, JEM recently issued a press release for the various custom military cable assemblies it manufactures. This press release will appear in various media outlets throughout the next few months. Please read on to learn more about ITAR and to read JEM's Custom Military Cable Assemblies press release.

Don't forget to view the coupon below for \$5 off any purchase of \$25 or more at the www.jemcables.com website!

Custom Military Cable Assemblies

Custom Military Cable Assemblies: Custom Made from Coax, Fiber, and Wire

If you need custom fabricated military cable assemblies and wire harnesses, check with JEM Electronics, Inc. of Franklin, Massachusetts. They are ITAR registered (cage code 3DTF7) and ISO 9001:2008 qualified.

JEM Military Cable Assemblies can incorporate ruggedized and standard fiber optics, 6 to 36 Ga wire, and coaxial cabling with a wide variety of connectors from leading vendors; built to MIL specifications. All finished cable assemblies and wiring harnesses are 100% tested for continuity, resistance, mechanical integrity, and the shielded cables are tested for hi-pot.

Specializing in custom cable assemblies for electronic applications such as communications equipment, encryption systems, control panels, and antenna systems, JEM Military Cable Assemblies can incorporate connectors from Amphenol, Cannon, Glenair, Souriau, Tyco, and other leading suppliers.

JEM Military Cable Assemblies are priced according to construction and quantity. Literature and price quotations are

available upon request.

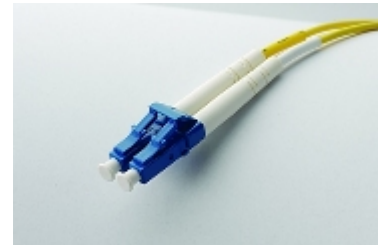

ITAR Registration

In order to manufacture military cable assemblies for the U.S. government, JEM maintains its ITAR certification with the U.S. Department of State. JEM renewed its ITAR (International Traffic in Arms Regulations) certification earlier this year. Any person who engages in the business of either manufacturing or exporting defense articles or furnishing defense services is required to be ITAR registered. To learn more about ITAR, you can visit the U.S. Department of State's website at www.pmddtc.state.gov.

In addition to being ITAR registered, JEM also has the following certifications: ISO9001:2008, TS16949, and Medical ISO 13485:2003. JEM manufactures product meeting the UL/CSA safety requirements and also follows the latest IPC standards. You can visit www.jemelectronics.com/certifications read more about JEM's certifications or to view these certifications.
